

Project topic:

Stage	Design Feature
<p>Context Understand and investigate the local context of your chosen public space (e.g. <i>who are the people that live, work or visit this location?</i>)</p>	
<p>Objectives Develop strategies that will activate your chosen public space and encourage people to interact (e.g. <i>how will you promote your pop-up to inform people about its purpose?</i>)</p>	
<p>Elements Identify the types of materials you will need to construct your pop-up (e.g. <i>gazebo, tables, chairs, signs etc.</i>) This also includes the types of interactions that will be within your pop-up (e.g. <i>tablet devices, digital interactions, games, pens, paper etc.</i>)</p>	
<p>Deployment Outline the timing and duration needed for your pop-up deployment in your chosen public space (e.g. <i>how many hours, days, staff</i>). This should also include the methods you will use to collect your user data (e.g. <i>surveys, observations, polls</i>).</p>
