

# Science Fiction Prototyping

| Steps                                     | Narrative outline |
|---|-------------------|
| 1: Pick your science and build your world |                   |
| 2: The scientific inflection point        |                   |
| 3: Ramifications of the science on people |                   |
| 4: The human inflection point             |                   |
| 5: What did we learn?                     |                   |
